4. ENTRIES

4.1 Closing date for entries

See the programme in chronological order (point 3) and SPR Art. 23.

4.2 Entry procedure

4.2.1 Registration shall be carried out online at www.pamk.cz. The time of the entry form entering in the system and the date of the entry fee payment are decisive data.

Details regarding co-driver can be delivered additionally up to completion of the administrative check.

Foreign participants have to submit agreement of their ASN (Art. 2.3.8 ISC)

4.2.2 The entry form will be accepted after the full amount of entry fee has been credited to the organizer's bank account by the closing date of entry. Exceptionally, the organizer may accept the entry form before the payment of entry fee. The entry fee payment after the closing date of entry, though, is only possible on the prior agreement with the organizer, and it is always subject to the fee increased by 25 %. In such a case, the competitor is obliged to pay the fee by the time of the itinerary handover at the latest.

4.2.3 Confirmation about acceptance of entry form will be sent via an e-mail.

- the crews excused in due form before the administrative check will be refunded 50% of the entry fee.

4.6.3 The deposit (or part of it) will be returned within one month after the end of the rally.

5. INSURANCE

5.1 Insurance Coverage of the Organizer

5.1.1 The Autoclub ČR has made the general insurance contract No. C550012623 with Allianz pojišťovna, a. s. via the Company PLATINUM Consulting s.r.o. covering the organizer's liability for damage caused to the third party during the competition up to CZK 11,000,000 per event.

5.1.2 The part of the insurance agreement is the coverage for cars against the damage caused to third party up to CZK 11 000 000 per participant. However, the damage caused by drivers among themselves is not covered by this contract. The organizer binds self to arrange this insurance contract for all competitors except those, who will show the long-term liability insurance covering damages caused on closed route. The drivers and competitors cannot be mutually considered to be a third party.

The insurance for organizers and participants is made with an integral excess of CZK 5 000. It means that damage up to CZK 5 000 won't be refunded and damage over CZK 5 000 will be covered without the complicity of insured.

5.1.3 All crews at administrative check have to present valid International motor insurance card for their car. Without this card the crew won't be allowed to start.

5.2 Insurance Coverage for the competitors and crews

All drivers and co-drivers are obliged to arrange their own personal accident insurance. The personal insurance card should be presented on request at administrative check (not valid for the owners of the AS ACCR license). Insurance must cover costs of possible medical treatment in the Czech Republic starting from Shakedown until Parc fermé after finish of the rally (Leg 2).

5.3 Damage reporting

The crews are obliged to notify the organizer about any damage caused on the track by their car by the end of event at the latest. Violation of this duty stands for summoning the competitor and involved crew to a disciplinary committee.

5.4 Insurance Coverage Exclusions

Auxiliary vehicles, cars dedicated to reconnaissance rides and vehicles with special labels issued by the organiser are not covered by provided rally insurance (with the exception of insured organiser's cars) and those are always going on their own responsibility.

6. ADVERTISING AND IDENTIFICATION

6.1 Obligatory advertising

- starting numbers:
- rally plates:
- on both sides of the rear car part

58. Rallye Šumava Klatovy
Klatovy, Plzeňský kraj, Škoda Šmucler
ONI Systém

6.2 Optional organiser's advertising

The organizer reserves following places which must remain free:

- space 67 x 20 cm below the side door starting number:
 - **Škoda Šmucler, Klatovy** (left side of the car)
 - **Plzeňský kraj** (right side of the car)
 - another advertising will be specified in the Bulletin

Placement of advertisings proposed by organizer is given in Appendix 4 of these supplementary regulations.

7. TYRES

Not following the rules for the use of tyres will be reported to the sport marshals, who can use the penalties according to MSŘ Art. 12.1 and 12.2.

7.1 Tyres for use during the rally

See Art. 13 of the SPR and Appendix V (tyres and wheels). When driving the car on public roads in the Czech Republic, the legal limit of the tyre tread pattern min. 1.6 mm must be kept.

7.2 Tyres for use on reconnaissance

When driving the car on public roads in the Czech Republic, the legal limit of the tyre tread pattern min. 1.6 mm must be kept.

7.3 National laws or special requirements

When driving the car on public roads in the Czech Republic, the legal limit of the tyre tread pattern min. 1.6 mm must be kept.

8. FUEL

Leadless fuel is allowed with a maximum number of lead 0,013 g/l and follow MSŘ Appendix J Art. 252.9. (RRSR Art. 59).

9. RECONNAISSANCE OF SPECIAL STAGES

Reconnaissance will follow Art. 35 of SPR. Reconnaissance time schedule can be found in Appendix 2 of SR.

9.1 Reconnaissance Registration Procedure

Prior recce each crew must inform the organizer about the registration number and the car manufacturer that is going to be used for the reconnaissance. They will receive a GPS monitoring unit. GPS unit must be inside the car for the whole length of reconnaissance, also during liaisons. The organizer will supply the crew with starting number which must be affixed in the right upper corner of the windscreen and on the rear side windows. The organizer must be informed in advance about a possible change of the car on mobile +420 720 037 750. The GPS monitoring unit must be returned at the press centre, see the programme (point 3).

9.2 Regulations

The crews are obliged to observe all provisions of SPR and of these SR.

9.2.1 Any presence of a driver or co-driver on the route of SS during the period of 2 months prior the start of the rally shall be considered as performed reconnaissance. Each driver and/or co-driver who for whatever reason enters the area during that period must promptly inform the Deputy Clerk of the Course - Ing. Pavel Štípek (+ 420 720 037 750), with exception of drivers or co-drivers living or working in that area. These restrictions apply to all who wish to attend the rally regardless of whether they already sent the entry form or received the supplementary regulations.

9.2.2 Illegal reconnaissance performed out of the schedule of reconnaissance (Appendix 2 SR) or performing more passages than permitted will be reported to the sport marshals.

9.2.3 Reconnaissance will be performed in compliance with Art. 35 of SPR and will be performed in production cars in compliance with Art. 35.1 of SPR. These vehicles must be insured according to law.

9.2.4 Driving in the opposite direction of the special stage is forbidden unless stated in Appendix 2. The control will be carried out by GPS units and marshals appointed by the Clerk of the Course, who will monitor the reconnaissance course on the spot.

9.2.5 The progress of the reconnaissance will be monitored by GPS unit, by the Czech Police and other officials appointed by the Clerk of the Course: Josef Rubáš, Zdeněk Weber, Petr Sklenář, František Maxa, Jiří Hodek, Petr Kubini, Pavel Štípek. The maximum speed limitations during the reconnaissance follow the Czech traffic regulations. Breaking the traffic rules and mainly exceeding the speed limits will be checked by the monitoring GPS device as well as by the Czech police. Any breaking the rules will be subject to the standard procedures of the Czech police. If there is found that the reconnaissance vehicle is not equipped with working GPS unit the driver be penalised according to the Article 9.2.6 SR. In case of exceeding the speed limit during the reconnaissance will be solved in compliance with SPR 2024.

9.2.6 If there is found that driver's vehicle is not equipped with working GPS unit during reconnaissance, they will be reported to sport marshals.

9.3 Number of passes

During the reconnaissance max. 3 passes are allowed on the same special stage.

9.4 Driving conduct

The crews are obliged to follow Article 34 of SPR.

10. ADMINISTRATIVE CHECKS

Crews are obliged to make administrative check before their time for scrutineering.

10.1 Documents to be checked:

- **Valid driving licences of both crew members – copies are not to be accepted**
- **Car insurance certificate (“Green card) – a copy is to be accepted**
- Completion of entry details
- Car registration documents

- Authorisation of the car owner in case he is not a crew member
- Competitor's licence (foreign crews only)

11.5 Noise level

All cars must be equipped with the stable exhaust silencer. The outside noise level measured by stationary method may not exceed 96 dB (A) for all cars with permitted tolerance +2dB (A) for measurement error. Measurement is carried out at 3,500 rev./min with petrol engines and 2,500 rev/min. with diesel engines according to EHK 51.02. Noise level may be measured during the scrutineering and/or during the rally. Any car exceeding the permitted noise level at the scrutineering will not be permitted to start. Any excessive noise level detected during the event will be reported to the Stewards who can impose sanctions according to Article 12.1 and 12.2 of ISC.

11.6 National regulations

All vehicles must comply with art. 4.3.2 of these Supplementary Regulations with corresponding exceptions for sporting cars.

11.6.1 Catalytic converters

All vehicles must be obligatory equipped by homologated catalytic converter. For missing, incomplete, or ineffective catalytic converters identified during scrutineering, the crew shall be refused a start. A car with a missing or incomplete catalytic converter during rally shall be reported to the Stewards, who may impose penalty in accordance with art. 12.1 and 12.2 of the FIA International Sporting Code.

11.6.2 Car lighting

In liaison road sections between special stages, it is possible to use car lighting only through the original fitted and auxiliary headlamps with EHK ("E").

Headlamps without EHK must not be used during connection road sections. Complying with this regulation will be checked by judges of fact. Any infringement will be reported to the Stewards who may impose sanctions complying art. 12.1 and 12.2 of the FIA International Sporting Code.

11.7 Obligatory monitoring device ONI® (GPS)

11.7.1 Each rally car must be equipped with a functional tracking unit bracket including two aerials, an indicator of electronic red flag and attached monitoring unit before the scrutineering.

11.7.2 Each car in the rally must be equipped with the GPS monitoring unit before the scrutineering. Each competitor is obliged to install it.

11.7.3 The GPS provider installs the holder and monitoring unit before the scrutineering and tests the monitoring system using activation chip (Dallas). It's needed to prepare 12V electricity output for easier installation.

11.7.4 Rent fees

Monitoring device

CZK 150 (included in the entry fee)

Device holder CZK 500

Complete set of the mobile unit (for foreigners) € 30

A possible destroying, failing to return or damaging of the device must be compensated according to NSŘ App. 1 Fees. All other details are given in the documents delivered at the administrative check, or in Appendix 6 of these SR.

11.7.5 Any attempt to tamper with, to manipulate or interfere with the monitoring device fitted to the competition car or any device preventing from monitoring data due to external interference, will be reported to the Stewards, who may impose a penalty according to the disciplinary code.

12. OTHER PROCEDURES

12.1 Ceremonial rally start

Location: Náměstí Míru, start ramp

Date: 19.04.2024 Time: 18.00 – 20.00

Participation is obligatory for all crews with their rally car. Times will be given in the announcement of the clerk of the course.

12.2.1 Rally start

The start will be proceeded by leaving TC 0.

12.2 Start of Special Stages

The start will be given by an electronic digital countdown system placed at the SS start in the driver's view and connected to a photocell for detecting early starts. The photocell is placed about 50 cm after the starting line in the height of 0.5 m (-/+ 50 cm). The start is fixed, and the car has to be positioned in the way that its foremost part is on the level of the start line.

The timekeeper will return the timecard to the crew in the minute of the starting procedure.

Starting procedure

If the light signalization with digital time countdown is used:

39 sec. - red light switches on

30 sec. - the starter points at the starting countdown system

10 sec. - red light blinks on

0 - Start - green light switches on

- 20 sec. - the green light switches off and red light switches on and Art. 48.4.3 of SPR will be applied.

In case of the electronic digital starting clock failure, the car shall start on the starter's signal.

12.2.1 Half-Circuit Special Stage 1/4

12.2.1.1 In circuit part of the SS the same part is taken several times according to the road book. After start to the SS the crew passes the prescribed number of laps according to the road book. Laps are counted by the crew. After the circuit part there continues a standard SS to the flying finish according to the road book.

12.2.1.2 The crew, which does not pass the prescribed number of laps, will be penalised by 7 minutes per each not finished lap.

If the number of laps is exceeded, the real time will be counted to the crew and it will be reported to the stewards

12.2.1.3 Start of the circuit stages SS 1/4

After arrival at the start, the time of the supposed start in the SS will be put in the timecard, which is the beginning of the driving time to the next TC. The start in the SS will be directed by the timekeeper regarding the safety of the crews.

The crew will start on command of the timekeeper when the route is free.

The exact moment of start is measured by the start detection device.

If the start is done in expected starting interval (approx. 1 minute), the timekeeper will show a board with number 5 approx. 5 seconds before green light appears on a semaphore. In case of a longer delay than expected, the timekeeper will show the board with a sign STOP and then show again the board with number 5 approx. 5 seconds before green light appears on the semaphore.

12.2.1.4 Start at the red light is prohibited! The crew will be reported to the stewards.

12.2.1.5 On SS 1/4 there will be located advertising arches. Their location will be marked on the track of the SS.

12.3 Finish procedures

The competition part of the rally ends at TC 10A at the entrance to the holding area in front of the finish ramp. The holding area will be prepared between TC 10A and the ramp, where the rules for Parc Fermé are valid but the crews can stay by their cars and accredited journalists can move there. After the ceremonial, crews are obliged to go straight to the finish Parc Fermé.

12.4 Permitted early check-in

Earlier arrival in TC 6A, 6C, 10C is permitted. Earlier arrival in TC 10A is not permitted.

In case of non-returning GPS tracking system immediately after the event, the fine 3000 CZK will be imposed to the competitor. Until the set is returned, the crew will not be enabled to start in the following competitions. Contact for returning: 722 734 127

2. Distribution of the ONI® tracking system Monitoring system ONI® consists of:

- tracking unit with display
- tracking unit holder
- power supply cable
- combined antenna roof
- control panel containing:
 - OK button to cancel the alarm / confirm red flag
 - SOS switch for calling emergency

ONI® tracking system will be installed to every rally car before each event. Detailed information will be published no later than during administrative checks.

After arrival in the scrutineering, device administrator will install the tracking unit, antenna and control panel. Antenna and power supply cables can be purchased by the crew for personal ownership. At the end of the rally or after retirement, the tracking unit or complete tracking system must be returned to the device administrator. Usually the devices are collected in the last service area or before finish of the rally.

3. Installation of the unit in the car

3.1 To fit the tracking unit with display, antenna and control panel, it is necessary for the competitor to follow exactly the Installation guide, to keep the unit in good condition and to protect it against damage and fouling (especially the connectors) during the time.

3.2 Foreign and one time rally participants will receive a rental version of the set equipped with magnetic roof antenna. Control panel with OK button and SOS switch is in one box for which the competitor has to choose a suitable place for fitting within the reach of both crew members. They are obliged to prepare everything for its installation prior to the scrutineering.

4. The unit operation during rally

To operate the unit, the crews have to meet all instructions as mentioned in the User's guide. Operation during events on SS:

• Accident (crash detection)

- The unit evaluates the situation and sends info about accident to rally control. Crew cannot affect this message.
- The display shows message: **Are you OK?** Confirm.
- 10 s after this question, the siren wails for another 15 s
- If the crew pushes **OK** button, this information is sent to rally control and information about accident is not sent to the unit of following cars in the stage.

• Stop on SS

- When the car stops on SS, it is counted as an obstacle. Unit signals to the crew by sound siren and text, that they have stopped. This signal takes 15 s.
- If the crew doesn't push OK, a warning message is sent to the rally control and also to other cars, which are currently on the stage arriving to the obstacle.

- With pushing the OK button the crew confirms that they are okay, on the display there is shown the message OK and information about the obstacle is not sent to the unit of the next cars on the stage.

• **Red flag**

- When the rally control hangs out the red flag, the display shows big message RED FLAG (with red background) and the siren sounds.
- Crew has obligation to confirm receiving the red flag by pushing the OK button and to reduce the speed according to the sporting regulations.
- The siren sound can be cancelled by pushing OK button.
- The red flag on display can be cancelled only by rally control.

5. Speed checking during reconnaissance

During reconnaissance, the crew is obliged to follow traffic rules of the Czech Republic. Not respecting these rules, especially exceeding the speed limits, will be monitored via ONI® tracking system. This checking doesn't exclude other checks, i.e. police controls according to their standard procedures.

ONI® tracking system for reconnaissance

Tracking system is checking the speed in every moment during the reconnaissance.

Every crew will pick up the ONI® recce tracking unit together with roadbook. Installation of the unit and its using during reconnaissance is obligatory for all crews during the whole schedule of reconnaissance according to the art. 3 Reconnaissance schedule. For speed checking during the reconnaissance, NCL 21 units are used.

NCL21 unit is started automatically on the announced day and time at the beginning of the reconnaissance. It is set so that it works on the batteries for 24 hours if the unit moves and for 80 hours if it does not.

Checking the location is started by shakes of the unit. The location is checked every 10 seconds and is sent to the app every single minute. It is not necessary to plug the unit to any power supply. It is possible to place the unit on metal surfaces - magnets are implemented in the unit.

Not using the unit in a rally car will be fined.

Every attempt to falsify, manipulate or infringe the unit for reconnaissance or any device, which will make impossible to collect data because of external interference will be reported to the stewards who can penalize the crew up to refusing the start.

Decision regarding seriousness of the offence and its repeating is in Clerk of the Course's authority. For exceeding the speed limit, sanctions can be given according to supplementary regulations – 20.2.
